### **The Track**

The track is located in Marana Az directly off the I10 south freeway. Take the Avry exit (marker 242). Turn right at the stop sign then immediately go left to stay on the southbound access road. The track is on your right (west) about ½ mile south of the stop sign. You can't miss it. People coming from California can miss Phoenix traffic and shorten their trip by using the Rt 85 cutoff to Gila Bend and taking Rt 8 back to the I10 it is about 16 miles farther but little traffic. Anyone coming from the southeast must go to the same exit and cross under the freeway The access road is one way only

The track will be open for camping and practice from Wednesday approximately at noon until Sunday afternoon. There are restrooms on sight but no power or water. The track is very fast and car friendly with a 330 ft race line and extremely wide corners. Many hotel and dining facilities are just 2 miles south on I 10.

Bring your own generator if you have it. There will be power to share for those that can't bring one. The track belongs to the Tucson Quarter Midget Association so please help us keep it in the same condition we found it. There are plenty of garbage cans. Use them and remember we're guests.

There is plenty of parking for campers , trailers and anyone else who wants to come Manufacturers are welcome to set up boothes or trailers in the parking lot

Weather will be the best of anywhere in the USA Low 65 high 85 with no humidity

The schedule of events is listed on page 11 of the QSAC rules posted at qsac.org and will be strictly followed. The most important thing is to have fun!!!

POINT of Contacts for any questions will be Mac McHenry Cell # 623-206-9698

Mike Lubanovich 602-402-3303

## Track Pictures

**Track promoters please pass out the information to club members We appreciate your help in promoting new racers at a new track location**

**Looking forward to meeting new racers from new places!!**
