

Greetings Rules Ratification Committee (RRC) members,

We present to you a change to the QSAC Rules Package.

RULES CHANGE PROPOSAL OVERVIEW:

There is one (1) rule change being proposed.

The change addresses a clarification for line item 8.3.22., which is located within section **8.3. ALLOWABLE ENGINE CHANGES** of the QSAC Rules Package. The change provides clarification of definition by using more specific words to define what is being referred to in the rule in question.

PROPOSAL #1: allow the changing of wording from “fins” to “ribs”, and from “fan housing” to “flywheel side crankcase half” in line item 8.3.22., as well as grammatical updates.

FROM:

8.3.22. Broken / damaged Fan housing fins are acceptable.

TO:

8.3.22. Broken and/or damaged ribs on the Flywheel Side Crankcase Half are acceptable.

REASON #1: to provide clarity regarding the specific item, as well as the features of the item that are allowed to deviate from their original OEM condition.

SUBSTANTIATION #1: There is no change to the context or intention of this rule. This change is merely a clarification of the words used to describe the parts and features in question.
